Thursday, March 16th: Special Lunch

Monday, March 20th: Spirit wear

Thursday, March 23rd: P/T Conferences

What We Are Learning

Reading: Students explored the concept of character traits. They identified both outside (physical) and inside (personality) traits of various characters.

Writing: We began our study of Informational Writing. Students explored nonfiction books to identify the many parts of an informational book.

Math: Students finished their study of double digit addition and subtraction. Next week we will begin our focus on graphing.

Science: Students discussed dental health for the last two weeks. Today we did a lab using eggs to show how drink choices affect the enamel. We also used toothpaste to demonstrate the importance of brushing to keep teeth healthy and white.

Religion- Leading up to this week, students were introduced to Lent. This week we focused on Ash Wednesday and being closer to God. Next week we will begin the Stations of the Cross.

Notes

We are super excited to have our new carpet squares! The students are loving their new flexible seating options.

Have a wonderful weekend!
